

**In the Drawings**

The Examiner objected to Figures 1 and 3-9 as failing to comply with 37 CFR 1.84 because descriptive labels necessary for understanding the drawings are missing. The Examiner also provided a Notice of Draftsperson's Patent Drawing Review that identified defects to the drawings under 37 CFR 1.84(e) and (p)(3). Namely, Figures 1-9 included copy machine marks and Figures 1-9 contained non-standard character sizes, e.g., numbers, letters and reference characters less than 1/8 inch in height. A proposed set of drawings is attached as Appendix A to this amendment to overcome the Examiner's objections. Following the Examiner's approval of the form of the proposed drawings, Applicants will submit a formal set of drawings that will comply in all respects with 37 CFR 1.84.
